

I want to go to Germany  
after the war.

I want to see the place where  
my Grandmother and Mother was  
born.

There are many Germans  
in this country and they're  
just like regular Americans.

Any body who are from other  
countries like Canada, France,  
Germany, Mexico, Brazil etc.  
who become Americans are  
proud to be citizen.

We American citizens  
must be proud of our  
country.

I say we because I'm a  
German, but an American  
citizen also.

But the worst place you  
can go is Canada
