

expect to go on the 23rd or the 24th.
I guess in Woonsocket the weather isn't like over here, because here it's very nice and very warm. The flies are already out and the people go fishing.

Dad thought it over you know about pians and now I promise you never to talk it to you about anymore. It's a big sacrifice for me because I don't like it, but I will do it for the Love of God and that the Blessed Virgin may bless me in my exams and that your work might come out all right. I'm doing it just for that, but because I love you very much and that you wish me to learn. Dad I want to make you happy by continm, continuing learning
O.K. Dad.
