## That was a Kite Masters Feat! Thank you Kite Masters 2009!

- 730 Kono Butterfly kites were made over the four days of the Utah Arts Festival.
- 1,250 Koi kites will remind the kitemakers of a wonderful experience at the Utah Arts Festival.

We survived heat waves, thunderstorms, micro-burst winds, torrential rain, cold and pleasant, festival perfect weather. I can almost stand up straight again. My camera burned out after Friday night's torrential rain storm and I've just been able to download the photos. Please send us a paragraph about your experience at the festival as Kite Master.

Give us your feedback. Hindsight in this instance and your thoughts would help

should we ever do this again, and I imagine that we will.

We can pull some kite kits together if you would like to take them to a community event and share the joy and pride of kite. Let me know and you can come pick them up.

Here is a link to the Deseret News story about our kites. Annette, check out the 6 cool pictures in their photo gallery.
